

'INTERNATIONAL PEACE OFFENSIVE'

Make the pledge to save life...

“PEACE FOR IRAN AND SYRIA – NO TO WAR!”

How can we the ordinary people be effective in stopping War?

Most of us agree that war is wrong both morally and in principle, and yet our objections are never taken into account- in real terms- by Governments consistantly ignoring our concerns. They ignore us because they can. Their main concern is to support the global financial institutions and their ability to control and influence the global markets and comodities, based on slavery in the third world and the far east. The only plans they make, concerning the people, is how to oppose and control the dissidents.

Under international law it is a criminal offence to wage a war of aggression. It is a criminal offence to assist in a crime against humanity, a crime against peace, and a crime against genocide. Therefore to go 'ON STRIKE FOR PEACE' to save life, can only be a moral duty and not an offence in law.

We must remember -we are the workers- and we do, and can have an effect on the supply of goods and commodities chain. If the workers unite together for peace, then this would make us the most powerful that we could be.10 years of protesting, marching, campaigning and lobbying has simply not been enough!

REALITY CHECK.....

WE HAVE NOT STOPPED ANY WAR.....THEREFORE....WE NEED TO TAKE EVASIVE ACTION NOW!

Should aggression build up towards imminent war with Iran and Syria, we will need to launch our “Peace Offensive” and SHUT DOWN the system.....PEACEFULLY.

We may not be able to put out a date for the strike as it is very unpredictable, and we may be taken by surprise. Should we have an emergency and we are unable to send out an alert, then use that as the signal to shut down. It's up to us – the grass roots movement – to initiate action to save life.

MAKE THE PLEDGE TO “SAVE LIFE” and go “ON STRIKE FOR PEACE!”

YOU DO NOT NEED TO BE A WORKER TO GO ON STRIKE FOR PEACE!

Includes: students, pensioners, housewives, anyone and everyone on benefit and disability allowance.

Anyone who does any activity “within the system” is actually supporting it. Therefore we need 3 days of:

*** NO SHOPPING! – BUY NOTHING!**

***NO LABOUR ! – Only emergency workers and essential workers carry on, the rest of us shut down.**

*** NO SCHOOL, COLLEGE, UNIVERSITY, NURSERY – To prevent death and injury to others, it is more important to register your concerns, rather than worry about a few days off.**

*** NO TRANSPORT! Buses, underground, trains, planes.**

*** NO TV! They sensationalise war.**

***Strike does not include emergency and essential workers whose work and travel we support. Police, Fire Service, Nurses, Doctors, Ambulance, Carers and Emergency Utility Workers.**

Forward Plan for an emergency

Prepare for the strike days in advance so that we are organised and have enough food, drink, and medical supplies to carry us over a week to facilitate any disruption our action may cause.

Make sure we have enough provisions for children and the elderly, our families, nor forgetting any pets.

Let people in your area know, including older and vulnerable people, so they have time to prepare.

Enjoy your time off to relax and reflect; spend precious time with family and friends. Treat it like you would an extended Christmas break.

- If necessary, we will continue to call follow-up strikes, in order to make our Government comply with the wishes of the people- who elect them- and who they serve.**

•

***You may like to establish a 'Peace Strike' in your town or city. See 'About Peace Strike'on the website.**
